

# The World's Leading Manufacturer of Safety Gates

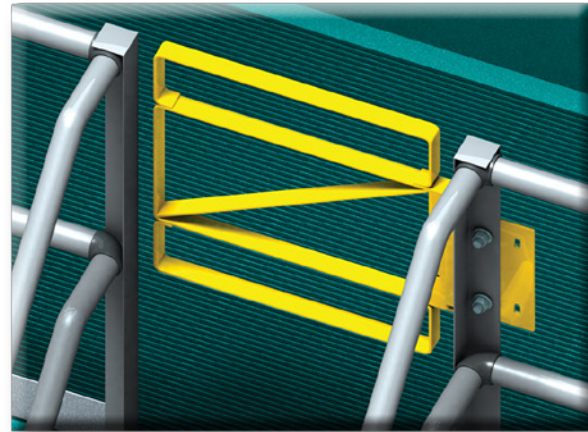

**The A Series:** The original self-closing gate

**The XL Series:** The extended coverage gate

**The R Series:** The alternative to "plastic" gates

**The Z Series:** The gate for new construction

## Your One Stop Shop for Safety Gates

Available in aluminum, carbon steel and stainless steel, FabEnCo Self-Closing Safety Gates eliminate the time and expense of fabricating gates that provide fall protection at ladder, platform, mezzanine and stair openings as required by OSHA.

- **Easy to Install** – in most cases, gates can be installed in 10 to 15 minutes using simple hand tools.
- **Versatile** – can be installed on either side of the handrail, left or right, at different levels.
- **Adjustable** – can be adjusted to fit a variety of openings.
- **Adaptable** – mounts on all types of handrails (channel, angle, flatbar, pipe).
- **Stainless Steel Spring** – returns gate after each passage.
- **Positive Stop** – positive stop without handrail contact.
- **Variety of Finishes** – a variety of finishes can be applied to our carbon steel gates, including galvanized and safety yellow powder-coat.
