

The World's Leading Manufacturer of Safety Gates

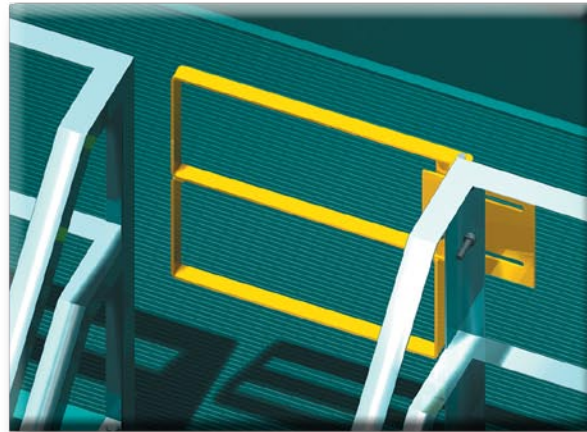

The A-71 Series: The choice of the Fortune 500

The XL Series: Our extended coverage gate

The R Series: Our low-cost, high-quality alternatives to “plastic” gates

Your Single Source Safety Gate Provider

If fall protection is a priority at your plant, get to know FabEnCo. As the company that virtually invented the safety gate industry, we can show you how to save the time and expense of fabricating gates to provide fall protection as required by OSHA on ladders, platforms, mezzanines and stair openings.

- **Easy to install** – no cutting, welding or drilling is necessary. Gates can be installed in 10 to 15 minutes using simple hand tools.
- **Versatile** – can be clamped on either side of the handrail, left or right, at different levels.
- **Adaptable** – mounts on all types of handrails (channel, angle, flatbar, pipe).
- **Adjustable** – can be adjusted to fit a variety of openings.
- **Stainless Steel Spring** – our special spring returns gate after each passage.
- **Positive Stop** – our adjustment bolts provide positive stop without handrail contact.
- **Variety of Finishes** – available in galvanized steel, safety yellow powder coat, stainless steel and aluminum.
